

Chris Glover

Senior Exploration Geologist

BSc Geology (Hons), Queens University of Belfast, UK

Member - AIG

Profile

Chris is an exploration professional with over 12 years of experience working throughout Australia, Asia and Africa. Initially focussing on gold exploration in China, Chris moved across to coal and worked for a number of years in the field throughout Australian coal basins. Chris has developed extensive experience and knowledge in exploration planning and project management and has successfully deployed these skills upon numerous greenfield and brownfield exploration projects delivering projects on time and within budget. In recent times Chris has focussed on projects in East Africa gaining experience in Tanzania, Malawi and Mozambique.

Expertise

- **Exploration:** Planning, execution and management of exploration programs throughout Asia, Africa and Australia
- **Stakeholder engagement:** Consulting and liaising with key stakeholders such as landholders and cultural groups
- **Software:** MapInfo Discover, QGIS, Task Manager, Geobank, LogCheck, Minex, MineScape & Microsoft Suite
- **Prospectivity evaluation:** Desk and field based acquisition of data to rapidly appraise ground for potential resources.

Career Highlights

- **Peabody:** Successfully managed and executed exploration for \$1M JV with Conarco Minerals
- **Aquila:** Delivered maiden resource models for the Walton and Wilpeena projects
- **Xenith:** Part of the team that delivered phase 8 exploration drilling for Minas de Revuboe, Mozambique
- **Intra Energy Corps:** Assisted in the opening of the Nkhachira Coal Mine, planning production drilling and planning reconnaissance and drilling targets in 5 exploration permits, Karonga District, Malawi.
